My Own Potty™

This product makes it easy for your customers to find a simple solution to a complex problem.

While its primary market will be parents who want to potty train their children in just one step, it also makes great sense for grandparents or others who have young guests who are in the process of potty training. It's compact, sanitary and best of all easy.

With "My Own Potty™" you can place the products easily on a clip strip, or present them prominently in their own freestanding display.

Model 10
